Have you got any improvements planned over the next 12 months?		
What are your three top concerns or hopes for energy efficiency in your business?		
1		
2		
3		
After your approval, are you happy for written material about your business to be posted on the Z-NET Uralla website and Facebook page?		
Do you want to be considered for installing sensors or power meters? This requires a number of sensors to be fitted, light-weight cable to be run, and regular downloading of data (which you will have access to). Opting to have sensors installed will mean additional time and engagement with the Z-NET Uralla team.		
<p><b>Please have ready copies of past electricity and gas bills and an estimate of your fire wood use going back a few years if possible.</b></p>
